STENTOFON® PR0700

EXCHANGELESS INTERCOM

PR0700 IS AN EXCHANGELESS INTERCOM SYSTEM THAT PROVIDES IMMEDIATE CONNECTION FROM ANY MASTER STATION TO ANY OTHER MASTER OR SUBSTATION

PRO700
**EXCHANGELESS
INTERCOM**

YOUR HIDDEN BUSINESS ASSET

Would your company benefit from quicker communication between your employees?

Are there areas in your business where it is hard to locate people?

Would you like to improve your customer service – resolve customer queries more quickly, lessen customer delays and increase your throughput?

Would you like to reduce crime levels in your company? And would your public facing staff benefit from a discreet, silent alarm button linked to your own security?

**MANY CHALLENGES - ONE SOLUTION:
THE AFFORDABLE
PRO700**

MEDICAL

Pro700 offers a station incorporating the latest Microban® or anti-bacterial technology, suitable for clean areas. Easy to install and easy to use (hands free), Pro700 is suitable for a multitude of environments in the healthcare sector – from the surgery to psychiatric homes to private hospitals.

DOOR ENTRY/ELEVATOR SYSTEM

Pro700 offers communication and remote opening of front and back entrances – or multiple doors if necessary. Ideally suited for multiple entrances/multiple elevator facilities, Pro700 is particularly ideal when there are staffing changes throughout the day.

INDUSTRY

Pro700 also allows efficient communication in difficult to reach places and where dirt, dust, or noise makes standard communication impractical. With fast access to colleagues, a large station range and easy-to-use features, Pro700 is the preferred solution for small industries or production cells in larger plants.

SHOPS

Pro700 is the easy-to-use security and communication system for the small shop. During late hours, the cashier can call colleagues for backup with the single touch of a hidden key. Food stores, convenience stores, clothes stores, they all share the need to cover, efficiently, announcements, price requests and respond to delivery and customer calls whether these are at the front of house or at the delivery area.

CABLE REQ	STD: 120NF/KM-700M, GOOD: 47NF/KM-1700M

HOLDING AREAS, PRISONS AND TREATMENT FACILITIES

With rugged stainless steel stations and sophisticated surveillance features, Pro700 is ideal for small jails or similar environments where a small number of mobile staff must cope with a varying number of inmates. Each cell can be equipped with a local call indication lamp/response button for time-saving responses by the guard in the corridor. With optional sound detection, Pro700 is also ideally suited for treatment facilities or detox centres, where it is necessary to communicate with, and monitor clients for their own protection.

OFFICES

Pro700 offers the simplicity and convenience of rapid hands-free communication in the work

situation, both at offices and at loading bays. At the same time, it provides announcements and background music as a PA system. Add the security option of controlling/opening the front and back entrances and an emergency station in the elevator, and it becomes an investment which is hard to beat.

GAS STATIONS

Pro700 is the easy-to-use security and communication system for the gas station. During late hours, the cashier can talk to customers at the pump without leaving the till unattended – superior service and superior security in one system. The rugged station range is ideal for this tough and diverse environment offering both weatherproof, tamper proof and industrial grade stations.

PRO700 EXAMPLE

- PUBLIC ADDRESS
- TELEPHONE INTERFACE
- MULTIPURPOSE RELAY UNIT
- CLOSED RADIO NETWORK
- PROGRAM DISTRIBUTION

Used daily by thousands of businesses, public service buildings and security companies throughout the world, there isn't a better time to invest in your communication:

- Easy to use
- Cost efficient
- Excellent sound quality
- No central station required
- Simple installation and extension
- Simple integration with radio/PA systems
- Hidden alarm button for 'silent alarm' and "emergency call"
